After Account Creation Remember:

1) **Submit your account for review:**

A. You will need your 10 digit account ID xxx-xxx-xxx (In the top-right corner of your account. Locate your account ID by clicking the person icon).

B. Sign into Google for Nonprofits.

C. Select the checkbox for Ad Grants enrollment and submit your account ID.

D. Your account will be reviewed to make sure it complies with policies and you'll receive an email within 10 business days.

2) **Never enter billing information**

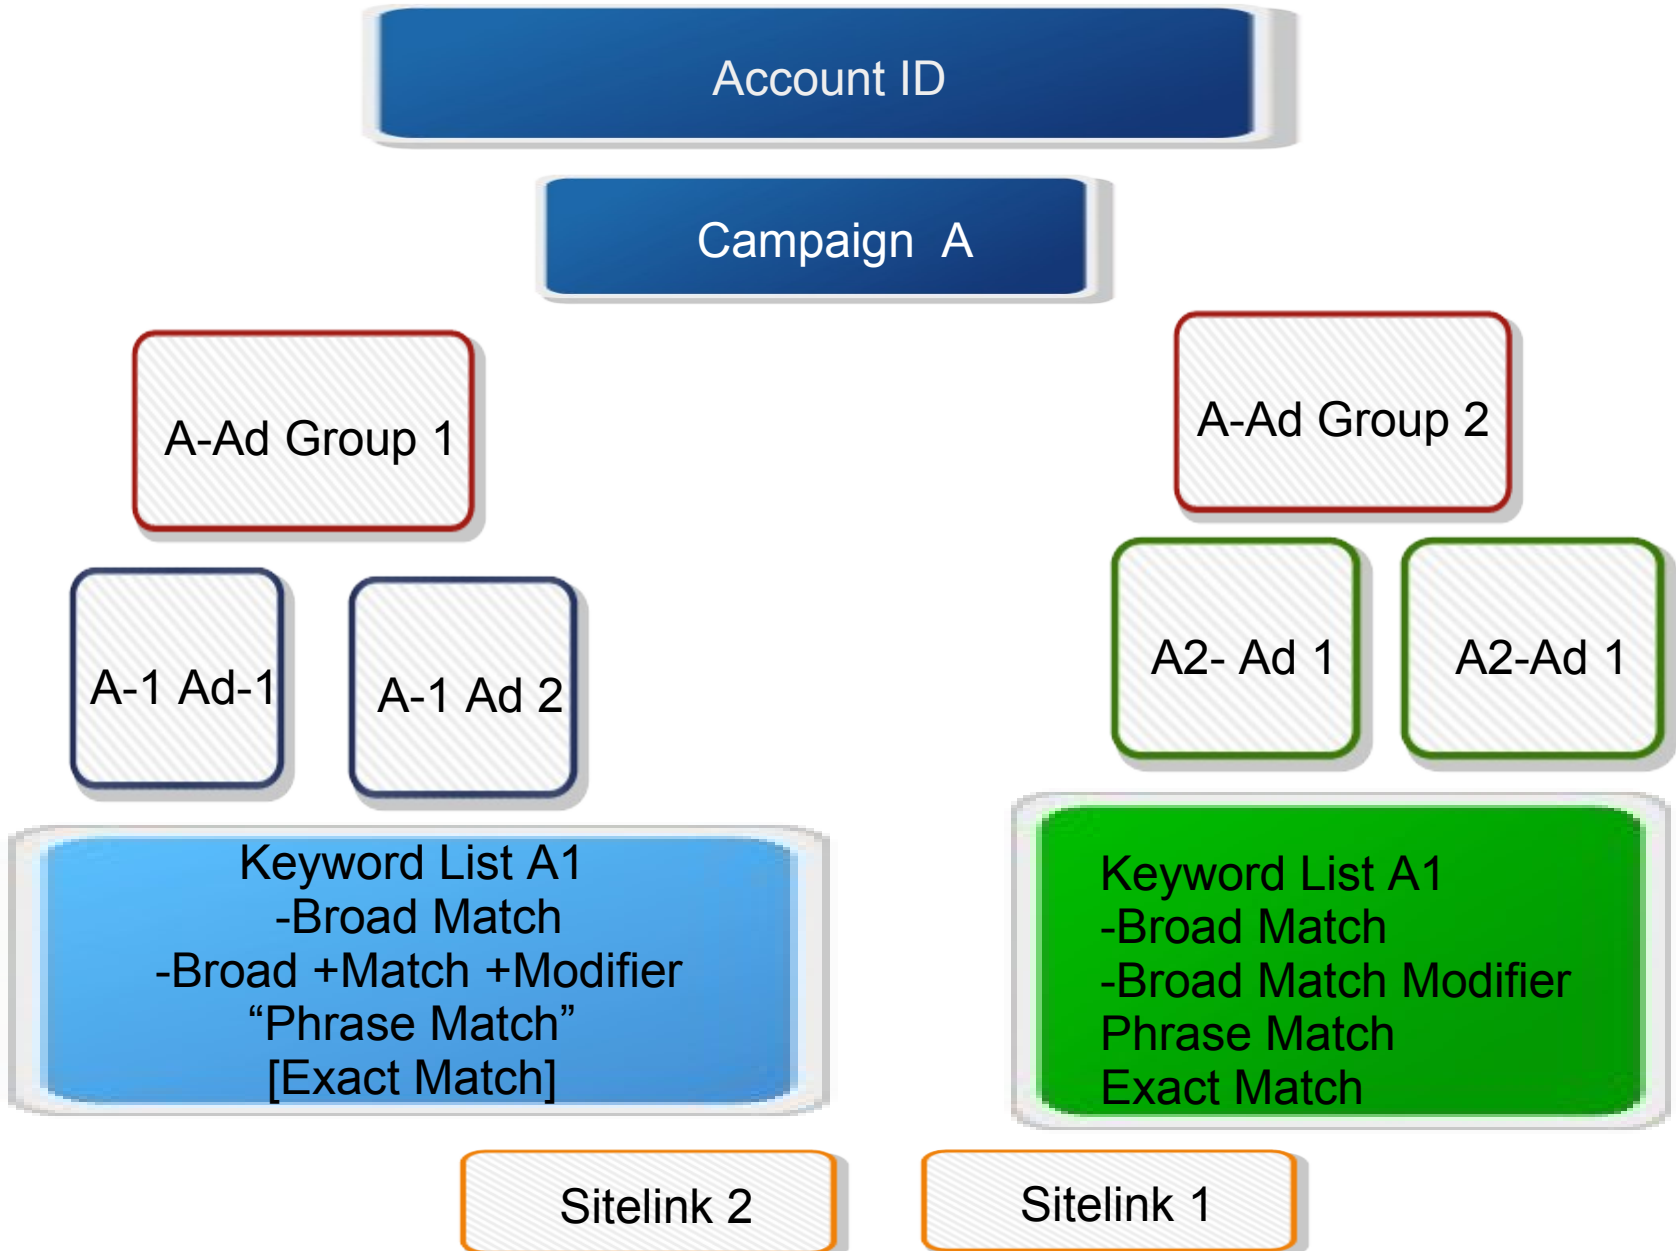

“ Do not enter credit card details or any other billing information when creating your Google Ads account for Google Ad Grants. If you enter credit card information and your campaigns run, you will be responsible for paying any charges accrued.”

3) **Log in at least weekly to check account after campaigns begin running**

Google Ads Express Creation How To Guide:

https://support.google.com/grants/answer/6077350?hl=en&ref_topic=3500132

Account Structure:

How To Structure and Name Campaigns/ Ad Groups

- It depends on who's managing the account. But make sure campaigns and ad groups are not generic!!!!
- Organize campaigns and ad groups based on themes (who ever sets up the account sets the tone for the themes)

Geo- Targeting: Why It Matters

If you do not geo-target your ads, you will be in non-compliance with Google Ads Grant policies

Setting Initial Bid to Manual Cost Per Click (Manual CPC) and not Maximize Bid Strategy (non-compliance)

Max Daily Budget \$329 per day -(30.4 average days in a month)

If your organization charges for products or services, your website must describe how your organization uses funds, for example, by disclosing an annual report.

No Affiliate Marketing or Commercial Based Links on Website, NO Google AdSense

How To Keyword Research & Keyword Policy:

- Pause keywords with a quality score 1 or 2 (create an automated rule- <https://support.google.com/adwords/answer/2472779> or video <https://www.youtube.com/watch?v=bTiw1TR6rs0>)
- No single keywords, unless approved by Google or the [exclusion list](#), your own branded words, recognized medical conditions, acronyms – but keywords whitelisted by Google
- Must maintain a 5% Click Through Rate (new accounts have 60 days to comply)-setup automated rule
- No overly generic keywords - “best videos”, “cool apps”, “e-books”, “today's news”, “easy yoga”, “download games”, “things to do”, “job alert”, or names of other organizations, places, historical events, or people on their own
- Your ads, keywords, and website may not make claims that promise results after a consultation, service, or purchase. Claims on your website must cite verifiable references to provide transparency to users.
- Google is using machine learning and AI tech which means more automation (latent semantic indexing).

Keyword Planning Tools:

- Google Ads (Google Ads may suggest keywords, do not use those unless highly relevant to your content!)
- Bing Ads (if you have Bing Ads Account)
- SpyFu (paid expensive)
- Thesaurus & Dictionary (free, but requires creativity)
- Competitive Analysis of other ads
- Google Trends & Google Suggest (For Campaign and Keyword Ideas)
- Google Search Console
- Google Analytics (tracking your website's search queries-in next session)
- SEMRush (paid version is expensive)
- Call To Action and Sensory Keywords
- Google Ads Search Terms Report
- Contextual search using social media
- Moz.com (Site explorer tool and probably is the best source to learn about SEO)

Keyword Match Types, Long Tail Keywords

→ Broad Match

→ Broad +match modifier

→ “Phrase Match Keyword ”

→ [Exact Match Keyword]

→ What Are Long Tail Keywords-A long-tail keyword is a keyword phrase that contains at least three words (though some say two or more is considered long-tail).

→ Latent Semantic Indexing helps search engines understand content and context, and determine the intent behind a user’s search based on the specific keywords they use.

Quality Scores: What They Are:

- 1) Based on Landing Page Experience**
- 2) Based on Ad Quality**
- 3) Expected Click Through Rate**

How To: Ad Copy

- Dynamic Keyword Insertion
- Call To Action Keywords
- Structure of a Google Ad
- Google Responsive Ads
- Dynamic Ads

3 Ways To Setup Conversion Tracking:

- 1) Google Ads Pixels**
- 2) Google Tag Manager**
- 3) Google Analytics**

Requirements! Make Sure Your Nonprofit is Ready For Google Ads Grant!!!

High-quality website

Your site must have a robust and clear description of your organization, mission, and activities. It must have substantial content, updated events and information, clear navigation, and clear calls to action for a high quality user experience.

Your site's content must be unique to your organization.

Your website must load quickly, not contain broken links and (for new accounts or new domains) be secured with HTTPS.

Your ads, keywords, and website may not make claims that promise results after a consultation, service, or purchase. Claims on your website must cite verifiable references to provide transparency to users.

Commercial activity

Commercial activity must not be the main purpose of your website. This includes sales of products and services, consultations, lead generation, and providing referrals.

Any limited commercial activities must describe how they support your mission.

Sites resembling for-profit blogs and vlogs are not permitted.

If your organization charges for products or services, your website must describe how your organization uses funds, for example, by disclosing an annual report.

Limited ads on website

Advertising on your organization's website must be relevant to your mission and not be obtrusive to users.

Your website may not host Google AdSense ads or affiliate advertising links. If you're required to link to an AdSense account to receive payments for the Android market, you're eligible as long as you don't display AdSense ads on your website

So What's Next? How Do We Actually Get The Google Ad Grant?

During the next session, we will discuss conversion tracking and how to set it up, types of conversions, and how to use Google Analytics to track conversions.

Take the time over the next get your approval and begin running ads.

- Come up with at least 2 different campaigns:
 - Not donations, events, ticket sales, volunteer (require conversion tracking)
- Do some initial keyword research
- Do a competitive analysis of local and national non-profits
- Spend time reading over regular Google Ads policies
- If you get stuck on account creation please use the community support tab in Google Ads For Nonprofits
- Determine if you will be able to maintain the compliance or if you should use Ads Express
- Determine what marketing goals you want to achieve with the Google Ads grant and what Key Performance Indicators are important to measure (You will need this for goal setting and conversions)

Homework: Three campaigns not to set up right now: Events, Fundraising/Donation, Anything that requires a conversion. Not until after the Google Analytics session. For these campaign types to be successful, they require a Smart Bid Strategy, which are reliant on conversion tracking. If you do not have conversions setup correctly and use a smart bid strategy, you risk account deactivation.
